#### 4.4. Step 4

Reconnect the LAN cable from your modem to the WAN port of the NetTalk Phone Adaptor and then click "Next" to continue

#### 4.5. Step 5

Select the connection method provided by your service provider and then click "Next" to continue

## 4.6. Step 6

### 4.6.1. PPPoE settings

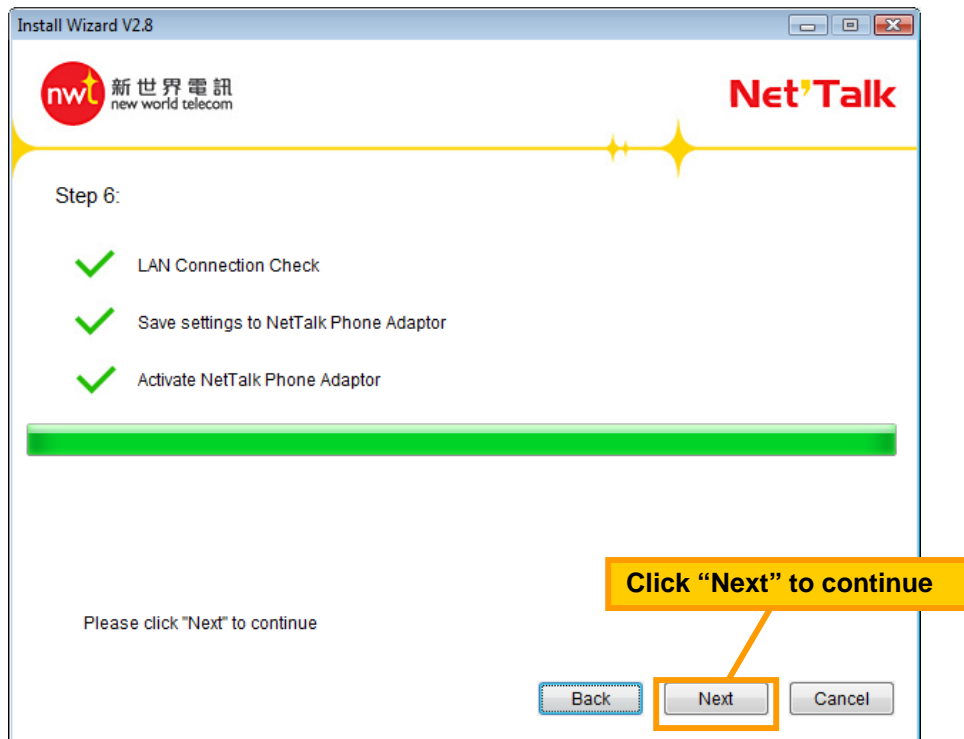

Enter your PPPoE Login ID and Password and then click "Next" to continue

The screenshot shows the 'Install Wizard V2.8' window for NetTalk. The title bar reads 'Install Wizard V2.8'. The top left features the 'nwt 新世界電訊 new world telecom' logo, and the top right features the 'NetTalk' logo. The main content area is titled 'Step 6: Please enter your PPPoE login ID and Password'. It contains three input fields: 'PPPoE Login ID', 'Password', and 'Confirm Password'. To the right of these fields is a yellow callout box with the text 'Enter your PPPoE Login ID and Password'. At the bottom right, there is a yellow callout box with the text 'Click "Next" to continue' pointing to the 'Next' button. The 'Next' button is highlighted with a red rectangle. The 'Back' and 'Cancel' buttons are also visible at the bottom.

### 4.6.2. DHCP Settings

Wait until the settings has been saved and NetTalk Phone Adaptor to be activated and then click "Next" to continue

The screenshot shows the 'Install Wizard V2.8' window for NetTalk. The title bar reads 'Install Wizard V2.8'. The top left features the 'nwt 新世界電訊 new world telecom' logo, and the top right features the 'NetTalk' logo. The main content area is titled 'Step 6:'. It displays two green checkmarks indicating successful steps: 'LAN Connection Check' and 'Save settings to NetTalk Phone Adaptor'. Below these, it says 'Activate NetTalk Phone Adaptor'. To the right of the checkmarks is a yellow callout box with the text 'Wait until the settings has been saved'. At the bottom, there is a progress bar that is partially filled with green. The 'Back', 'Next', and 'Cancel' buttons are visible at the bottom.

#### 4.6.3. Fixed IP Settings

Enter your IP address information and then click "Next" to continue

Install Wizard V2.8

nwl 新世界電訊  
new world telecom

NetTalk
